---

## CAREER OBJECTIVE

---

Aspiring Java Backend Developer with hands-on internship experience in Core Java, Linux, and DBMS. A fast learner who adapts to new environments, collaborates effectively in teams, and delivers efficient backend solutions. Eager to contribute to real-world engineering projects. Passionate about continuous learning and improving problem-solving skills. Committed to building reliable, scalable, and maintainable backend systems.

## TECHNICAL SKILLS

---

**Backend:** Core Java — OOP, Collections, File I/O, JSON Handling  
**Systems:** Linux — Command Line & System Operations  
**Database:** DBMS, SQL Fundamentals  
**Languages:** Python (Basics), HTML & CSS (Basics), Java  
**Practices:** Problem Solving, AI-assisted Development, Clean Code Principles

## INTERNSHIP EXPERIENCE

---

### Java Intern | Zoho Corporation

Jun – Jul 2025

- Applied Core Java to real-world development scenarios under professional mentorship
- Built a fully functional Tax Calculation System using OOP principles and JSON data handling
- Gained practical experience in backend logic, structured data flow, and clean code design
- Collaborated in a team environment to understand requirements and implement efficient solutions
- Practiced debugging, testing, and optimizing Java code for better performance and reliability

### Backend Engineering Intern | INFYREC

Jan – Feb 2025

- Mastered Linux fundamentals — file system management and command-line operations
- Gained exposure to frontend styling with Tailwind CSS in a full-stack context
- Developed foundational understanding of backend architecture and system design

## PROJECTS

---

### Grow Up — Career Skill Gap Analyzer

AI-based platform that analyzes user skill sets against industry requirements to identify gaps and delivers personalized learning paths to improve career readiness. Includes an assessment system to evaluate user skills, a mentorship feature for guided learning, and a structured learning platform for continuous improvement. Implemented backend logic to compare user skills with predefined role-based requirements and designed a recommendation system to prioritize learning based on identified gaps.

### DATAPULSE — Linux-Based Log Analyzer

Java application that parses system logs, detects errors, and identifies anomaly patterns to generate structured reports for system monitoring. Developed efficient file parsing techniques to handle large log data and applied pattern matching methods to improve accuracy in detecting system-level issues.

### HealEd — Mental Health Support System

AI-powered platform supporting student wellness through chatbot assistance and cognitive tests such as Stroop and N-Back. Provides progress tracking and insights for mental health awareness, with integration of cognitive test results to analyze user behavior and a focus on delivering a user-friendly interface for accessibility.

### Tax Calculator System — Console-Based Java Application

Console-based Java application that calculates tax based on income slabs, deductions, and allowances using clean OOP architecture. Supports JSON-based data handling for structured computations, with modular code design ensuring scalability, maintainability, and accurate input's.

## EDUCATION

---

|                                        |                                      |                                 |              |
|----------------------------------------|--------------------------------------|---------------------------------|--------------|
| <b>B.Tech – Information Technology</b> | Paavai Engineering College, Namakkal | 2023 – 2027 ( <i>Pursuing</i> ) | CGPA: 7.39   |
| <b>Higher Secondary (Class XII)</b>    | Subash Matric Hr Sec School          |                                 | Score: 72%   |
| <b>Secondary (Class X)</b>             | Subash Matric Hr Sec School          |                                 | Score: 99.9% |

## ACHIEVEMENTS & CERTIFICATIONS

- 
- Internship certifications from Zoho Corporation (Java) and INFYREC (Backend Engineering)
  - Secured 1<sup>st</sup> Prize at Cyber Hackathon
  - Secured 2<sup>nd</sup> Prize at Vibe X Hackathon Organized by (Google Developer Groups)
  - Participated in Workshop, Webcraft, Quiz at (Kurukshestra'26) in Anna University ,Chennai
  - Participated in National Science Day Celebration (SCIMIT'26) A Mega Project Contest at Manakula Vinayagar Institute of Technology (Puducherry)
  - Participated in India Tech Summit- Innovated 2026 Hackathon
  - Participated in Mini Hackathon, Master the Prompt, Poster Presentation at KGiSL, Coimbatore
  - Participated in Project Expo, Paper Presentation at Indra Ganesan Institute of Technology, Trichy
  - Participated in Coding Event at KIOT, Salem
  - Participated in Paper Presentation at Kavery Engineering College, Salem
-
